

TAKE AWAY BOXES

MAKE THE MOVE TO PAPER

Looking for a substitute for thin plastic takeaway containers? Look no further! Detpak has introduced a new carton which is an ideal solution.

These cartons are made from lightweight brown board, so they are a better environmental alternative to plastic. The board is made from recycled materials, and with its rustic brown look it suits the eco conscious.

The cartons have webbed corners and poly lining to prevent leaking, so they are suitable for saucy takeaway foods, and include a lunchbox style lid for easy opening.

Given the inbuilt lid, there is no need to purchase two separate products - plus the strong internal flaps mean they are stackable. So they are perfect for stacking in takeaway bags!

DESCRIPTION	ITEM CODE	VOLUME (ML)	COLOUR	SIZE (MM)	QTY/CTN
